

P-Tec™ Ceiling Speakers

PagePac® 70-Volt P-Tec Ceiling Speaker is the ideal speaker for open offices, restaurants and environments where you need to provide intelligible voice paging or background music. The P-Tec speaker is lightweight, easy to install, and easy to relocate. The speaker is designed for mounting onto acoustic tile and the patented push/lock mounting method means no large holes to cut into the surface.

Features & Advantages

Lightweight, Easy to Mount Using a Patented Push/Lock System

Save money & time on installation costs.

Side Dispersion Angle

More coverage with less speakers.

External Volume Control

Control the volume of individual speakers to achieve the perfect level for any area.
